Welcome!

Thank you for your inquiry regarding *byDesign Media* publishing opportunities. We take special pleasure in assisting those with important messages to communicate.

While traditional book publishers rarely look at an unsolicited manuscript by an unknown author, many of these works are worthy of publication. With the advent of print-on-demand printing technology and its increasingly recognized status in the publishing industry, individuals who wish to publish their own books have unprecedented opportunities. *byDesign Media* recognizes the fact that custom publishing is the only way that many worthy authors will reach their audience. Once in print, the message and the marketing (both the responsibility of the author) will determine how far reaching the impact on the world will be.

Book Production Services:	Editing	Cover Design (hard or soft covers)
	Scanning	ISBN Assignments & CIP Info
